### Brief about blood glucose measurement drive.

#### What is blood glucose?

Blood glucose, or blood sugar, is the main sugar found in your blood. It is your body's primary source of energy. It comes from the food you eat. Your body breaks down most of that food into glucose and releases it into your bloodstream. When your blood glucose goes up, it signals your pancreas to release insulin. Insulin is a hormone that helps glucose get into your cells to be used for energy.

Symptoms of diabetes and high blood sugar include:

- ✓ Feeling very thirsty (polydipsia).
- ✓ Frequent urination (polyuria).
- ✓ Fatigue.
- ✓ Feeling very hungry (polyphagia).
- ✓ Unexplained weight loss.
- ✓ Blurred vision.
- ✓ Slow healing of cuts or sores.

This event was organized by the faculty of pharmacy at race course ring road Rajkot. During this event, general people who are coming for a morning walk were taken as part of this drive. A total of 46 people have benefited from this event

Through this drive, department students also spread the knowledge about glucose levels and also importance to maintain sugar levels in the body.

On the 10th of February 2020, the Faculty of Physiotherapy at Marwadi University held a free physiotherapy camp in Kagdadi village, under the guidance of our principal, Dr Jayesh Parmar. The camp was organized as a community service initiative to provide healthcare to those with limited access.

The camp was led by Dr. Gauravgiri Gosai and Dr. Yagnik Dave, both Assistant Professors in the Faculty of Physiotherapy.

The event was well-received by the villagers, who showed up in large numbers. The team provided free physiotherapy services, including consultation, diagnosis, and treatment for various conditions such as joint pain, back pain, and muscular injuries. The team also provided advice on exercise, diet, and lifestyle modifications that can help prevent and manage such conditions.

The event was a great success, with many villagers expressing their gratitude for the free healthcare services provided by the university. The team also gained valuable experience in providing healthcare services in a rural setting, which will benefit the students of the Faculty of Physiotherapy in their future careers.
